Safe points

UNICEF

- only United Nations organization for children
- 190 countries
- save children's lives & protect and implement children's rights

**Collecting funds for
children in
developing
countries!**

UNICEF responds in case of a crisis due to natural disasters or armed conflicts. In these cases, their logistics enables them to provide emergency aid in 24 hours anywhere in the world.

In co-operation with partner organizations, governments and local communities, UNICEF performs locally adapted programmes that improve the lives of children and their families.

Safe Points

public spaces

Safe Points

- UNICEF Safe points network
- all employees (volunteers!) in Safe Points go through training that is organized by UNICEF (how to properly react and communicate with a child and informs them which institutions to contact when necessary)

more than 3000 volunteers
participating!

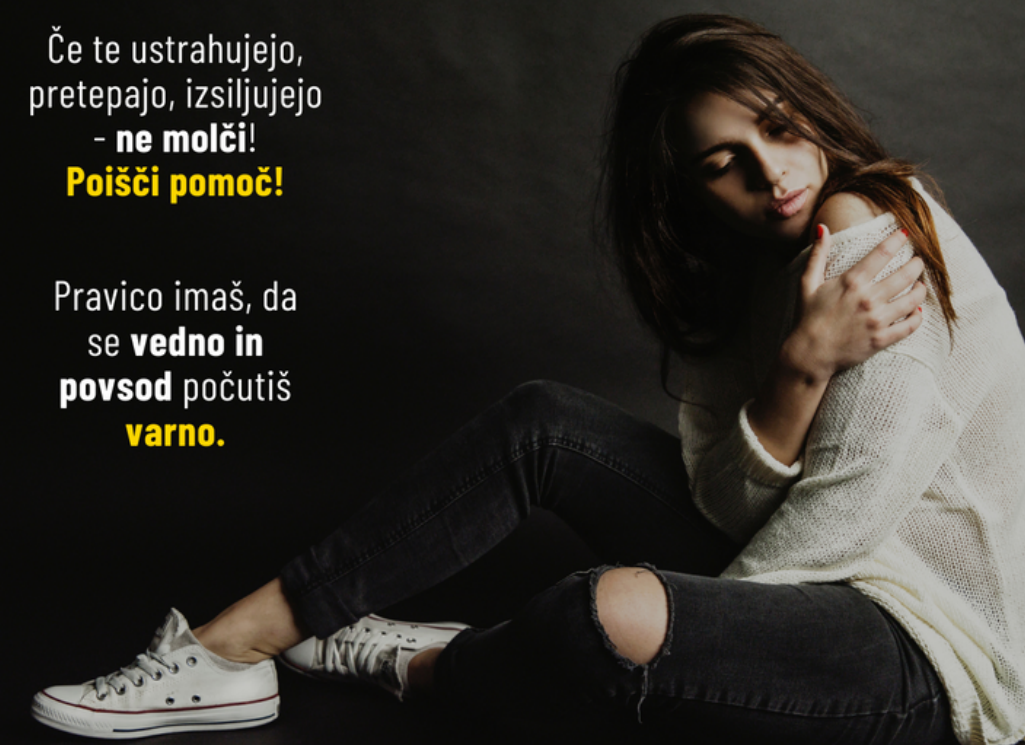

Safe Points volunteers are not experts in working with children and have no legal jurisdiction for the protection of children. However, having learned the basics of working with children, they represent an important ...

bridge between children and institutions.
